

# The Agenda 21 Reservations

## Natural Solutions for Real Sustainability

This is the slogan of Agenda 21:

"To protect the rights of future generations and all species against the potential crimes of the present"

Reading *between the lines* Agenda 21 wants to treat *you* as a criminal and hold *you* in protective custody... protecting the interests of the globalist elite.

# Natural Solutions Foundation

- Since 2004 – World's Largest Health and Food, Freedom and Justice NGO
- *We discover, develop, demonstrate, document and disseminate* natural solutions...
- A sustainable world can be free and prosperous
- Agenda 21 Depopulation and People Control -
  - **Neither moral nor necessary!**

# Foundation Leadership

**Maj. Gen. Bert Stubblebine (US Army ret.) - President**  
**Rima E. Laibow, MD – Medical Director**  
**Ralph Fucetola, JD – Counsel**  
**Gail Coba – Executive Director**

# Agenda 21 & the Genomicidal Technologies

- “Weaponizing the world against human survival.”  
General Bert

# Agenda 21

## Promoting Genome Disruption

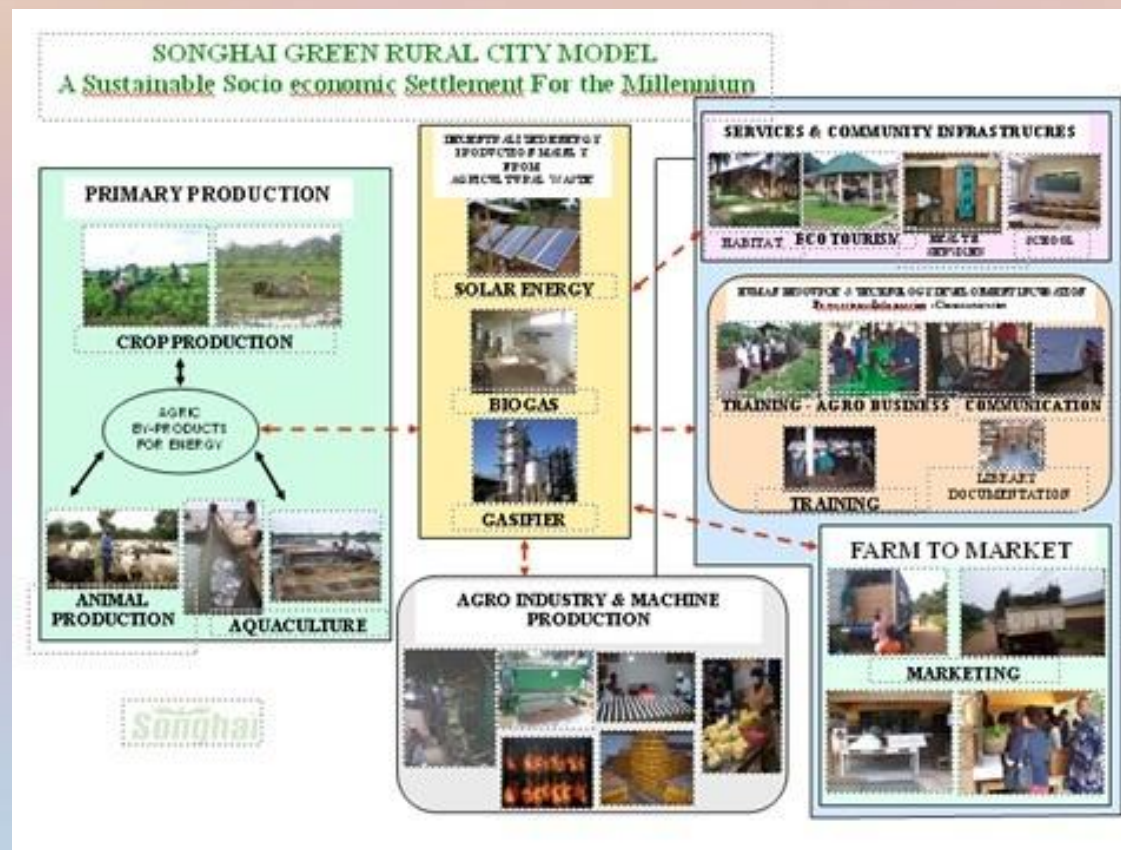

- Genome Disruption Syndrome - Identified by Dr. Rima

# Sustainable Engineering

## Not Agenda 21 Geo-engineering

- Sustainable Engineering does not mean declining standards of living.
- Zero Emissions Farming, as practiced by our collaborators at Songhai Institute ( Fr. Godfrey) shows the way.

# Agenda 21

## “Sustainable” = Depopulation

- Our collaborators at IEI (Institute for Sustainable Engineering (Dr. Tony Pereira) envision a prosperous, free, decentralized, sustainable world.
- “...the design, architecture and engineering of state-of-the-art sustainable, renewable, solar energy powered, organic food producing, and non-toxic built environment, homes, residences, offices, buildings, schools, cities and communities that are economical, safe to live in, long lived, low maintenance, use the smallest amount of energy and resources both for construction and life supporting service, produce their own energy and recycle their own waste, human waste included, collect and recycle water, all working in balance and harmony with the natural environment: air, water, soil and light.” -- Dr. Pereira

**True Sustainability Protects and Enhances Human Survival**

# The Freedom Reservations to Agenda 21 - 1

As free and sovereign individuals committed to a thriving human population, on a sustainable planet,

We propose the Freedom Reservations to Agenda 21, demanding respect for our humanity.

Conceived in the mid-1980s, Agenda 21 uses the language of “sustainability” to promote a Globalist Depopulation Agenda, to benefit the internationalist elites.

# The Freedom Reservations to Agenda 21 - 2

The “logic” of Agenda 21 would require the early deaths of 90% of humanity – what has been called:

**“THE GREAT CULLING.”**

We are not chattel/cattle to be culled for the benefit of the elitists.

We demand our fundamental human rights and insist that no component of Agenda 21 be in derogation of the *Universal Declaration of Human Rights*.

# The Freedom Reservations to Agenda 21 - 3

If Agenda 21 is a “treaty” among the elite determining a restrictive future for humanity, we reserve our rights...

**We proclaim our fundamental human rights, which no state, combination of states, or agencies thereof may violate -**

- Freedom to communicate, assemble, associate and petition for redress of grievances: our expressive association rights.
- Freedom to live and to defend our lives, including the right to acquire and hold property, and maintain family, community & economic associations, and the right to keep and bear arms for self-defense: our individual sovereignty rights.

# Agenda 21 Conclusion

The Globalist Elite have their Depopulation Agenda.

We oppose that agenda of tyranny and death.

We offer a *Planetary Vision of Sustainability*, grounded in profound respect for each person and for the Planet we all share.

Our Mission: to *Heal the World!*
