The Advance Vaccine Directive (AVD) Card is a Medical Directive, similar to “I am a diabetic” or “I refuse all transfusions” cards that many people carry. It tells ER and other medical personnel that you do not give your Informed Consent for any vaccination. Without Informed Consent, jabbing you with a vaccine is an assault and battery and gives rise to legal damages. As the Supreme Court said in 2013: you have the right to prevent an “agent of government from piercing the skin.”

CHAPTER ONE

Mad Science — Genomicidal Genomicists

www.NSFmarketplace.com

There is something very strange happening in the world health system. It's called GHSI/A, the Global Health Security Initiative / Agenda and it is NOT your friend.

Here's how the official website¹ explains this “unofficial” “government” “public/private partnership” which is being granted unprecedented powers of life and death over you and yours in time of plague (now on its way!):

“The Global Health Security Initiative (GHSI) is an informal, international partnership among like-minded countries to strengthen health preparedness and response globally to threats of biological, chemical, radio-nuclear terrorism (CBRN) and pandemic influenza.

This Initiative was launched in November 2001 by Canada, the European Union, France, Germany, Italy, Japan, Mexico, the United Kingdom and the United States. The World Health Organization serves as an expert advisor to the GHSI. The GHSI was envisaged as an informal group to fill a gap for like-minded countries to address health issues of the day, such as global health security. The Initiative was not intended to replace, overlap or duplicate existing fora or networks.”²

This “unofficial” approach to infectious disease supports the scientifically and medically untenable, and unsupported, notion that vaccinating everyone on the planet prior to any disease outbreaks would be a good thing. It also supports reducing the population to reduce the number of people who can get the diseases of concern because they are not there (that is, eliminating people so that they do not die of infectious diseases since they are already dead). Less “vectors and victims” means less cost of disease to governments. It's just wise management of the human herd by its herd masters. This is, of course, vicious, anti-human and tyrannical.

¹ <http://www.ghsi.ca/english/index.asp>

² Ibid

The illogic, immorality and unacceptability of this “reasoning” is apparent to those who would be eliminated at the whim of the “Experts” -- you and me. It is, however, not at all apparent to those who assume that they would be in the privileged seat of power and protection, neither eliminated nor ill in a global pandemic.^{3, 4}

Consider the following important, but highly disturbing, items:

Item #1: President Obama, on November 4, 2016, in his last weeks in office, decrees the un-official “Global Health Security Initiative” is now, following his Executive Order to that effect,⁵ an *official* agenda of the US Government. GHSI, now GHSA, promotes the astounding notion that depopulation is the most cost-effective method of assuring less pandemics.

Dr. Rima said at that time, “**The genocidal globalists are at it again.** In 2014, under the guise of a “health protection strategy” for the entire world, the Global Health Security Initiative (GHSI) they brewed up a new way to quite literally, kill off a great many of us. All “for our own protection” of course. In 2016 the “Initiative” became US Public Policy as an “Agenda” by Executive Order of lame-duck President Obama.”⁶

Item #2: Despite a long history of “mistakes” that have released dangerous diseases from even high-security labs, prestigious institutions such as the Louis Pasteur Institute in France continue to “experiment” to find out how “easy” it might be to weaponize various pandemic pathogens.

For example, “World media are reporting that Baxter Pharmaceuticals has admitted that it “accidentally” contaminated various vaccine batches with Avian Flu viruses. These batches were shipped to 18 countries. Clearly, either 1. stupidity and incompetence or 2. intentional contamination of flu vaccine lots was at work.”⁷

Item #3: Shortly after a fired Louis Pasteur scientist (who was in charge of weaponizing the Black Death) visits the island of Madagascar, the said Black Death pops up in Madagascar. “**The highly unusual outbreak of airborne Pneumonic Plague in Madagascar may be manmade and of higher threat to humanity than might otherwise be expected.** ... In August the POTRBLOG team warned about the potential for an outbreak of Pneumonic Plague tied to the arrest one of the world’s top Pneumonic Plague researchers as the mastermind behind a truly bizarre gay fetish murder triangle.”⁸

Observers of the march to depopulation, devastating man-enhanced plagues and vaccination efforts are deeply concerned. For example, Rima E. Laibow, MD, commenting on behalf of Natural Solutions Foundation, of which she is Medical Director, comments:

“Institutions like the GHSI and Louis Pasteur engage in institutionalized unethical behavior when they advocate the deaths of “vectors and victims” or seek to weaponize deadly pathogens, making them deadlier

³ Pabst Batten, *The Patient as Victim and Vector: Ethics and Infectious Disease*,

⁵ <https://obamawhitehouse.archives.gov/the-press-office/2016/11/04/executive-order-advancing-global-health-security-agenda-achieve-world>

⁶ <http://drrimatruthreports.com/lame-duck-potus-eo-medical-tyranny/>

⁷ <http://drrimatruthreports.com/action-ealart-pandemic-risk-from-big-pharm-vaccine-contamination-accident/>

⁸ <http://www.opensourcetruth.com/here-comes-plaguezilla-for-real/>

when they escape the lab setting. These institutions attract exactly the psychological types that should be least trusted with access to deadly agents.

“It does not surprise me that, for example, live pandemic viruses would “somehow” get from one “Level Three” containment building to another separate containment building and contaminate large numbers of vaccines, as happened in 2009 in Europe. Nor does it surprise me that a possibly psychotic truly “mad scientist” (who engaged in odd cult activities in his free time) would release dangerous Plague pathogens in Madagascar, triggering what could become a world pandemic over the next few weeks.

“Now comes the news that the Marburg pathogen has made its appearance in Uganda, just on the edge of the WHO-declared Plague Danger Zone.... A DEADLY outbreak of a rare and highly fatal virus has broken out in eastern Uganda and five cases have already been identified, the World Health Organization (WHO) has confirmed. The disease, known as Marburg virus disease (MVD), is similar to Ebola and can be lethal in up to 90 per cent of cases.”⁹

Marburg is another weaponized disease. The Soviet Union began a biological weapons program in the 1920s. During World War II, Joseph Stalin was forced to move his biological warfare (BW) operations out of the path of advancing German forces and may have used tularemia against German troops in 1942 near Stalingrad.

By 1960, numerous BW research facilities existed throughout the Soviet Union. Although the USSR also signed the 1972 Biological Weapons Convention (BWC), the Soviets subsequently augmented their biowarfare programs. Over the course of its history, the Soviet program is known to have weaponized and stockpiled the following eleven bio-agents (and to have pursued basic research on many more):

- *Bacillus anthracis* (anthrax)
- *Yersinia pestis* (plague)
- *Francisella tularensis* (tularemia)
- *Burkholderia mallei* (glanders)
- *Brucella* spp (brucellosis)
- *Coxiella burnetii* (Q-fever)
- Venezuelan equine encephalitis virus (VEE)
- Botulinum toxin (botulism)
- Staphylococcal enterotoxin B
- Smallpox
- Marburg (*marburgvirus*)¹⁰

This partial list, of course, refers only a small part of the biological weapons program of the former Soviet Union. What has the US weaponized? The World Health Organization? The UN? China? Other agencies around the world?

In fact, a better question might be what *hasn't* been weaponized? US Department of Defense's program to create synthetic biology, had succeeded in weaponizing plants and pretty much everything else in the natural environment.

⁹ <http://www.express.co.uk/news/world/875433/Black-Death-plague-2017-madagascar-outbreak-africa-world-health-organisation-virus-uganda>

¹⁰ Cook, Michelle Stem and Amy F. Woolf (April 10, 2002), [Preventing Proliferation of Biological Weapons: U.S. Assistance to the Former Soviet States](#), (Congressional Research Service Report for Congress), pg 3

“What if you were deemed a fugitive 20 years from now, for doing something such as vocally speaking out against the status quo, growing cannabis, or going against the grain of the system. Then one day, you’re walking in some rural area you escaped to in order to avoid capture by the state, and the environment recognizes your identity and becomes weaponized to you.

The moss in the woods recognizes your biological footprint and creates a toxin to anesthetize you until authorities arrive to place you under arrest. The trees in this forest are not even equipped with cameras, but engineered, synthetic organisms with a biological code connected to a database that recognizes you are a fugitive and responds by creating toxins.

DARPA¹¹ is flirting with creating environments where every organism is engineered to perform biological tasks, from creating chemicals to being weaponized. The trees, moss, grass, insects, bacteria, and soil of an ecosystem could be engineered to release toxins on people, or put people to sleep until the state’s forces arrive, or perform any function they can engineer an organism to do.

Of course they present these ideas to the public promising prosperity, suggesting there will be industrial applications for organisms creating fuel, materials, and things that would be useful, but that’s never how it ends up when DARPA creates something.¹²

Here is a list of organisms and chemicals which the Federation of American Scientists reports as weaponized in the US:

- Anthrax
- Botulinum Toxin
- Brucellosis
- Cholera
- *Clostridium Perfringens* Toxin
- Crimean-Congo Hemorrhagic Fever
- Ebola Hemorrhagic Fever
- Melioidosis
- Plague
- Q Fever
- Ricin
- Rift Valley Fever
- Saxitoxin
- Smallpox
- Staphylococcal Enterotoxin B
- Trichothecene Mycotoxin
- Tularemia
- Venezuelan Equine Encephalitis¹³

And, of course, the essential question is here, "Could plague, *Yersinia pestis*, Ebola, Marburg and a host of others have been intentionally released too, weaponized or not?" Sadly, the evidence suggests that possibility.

To Dr. Rima’s concerns we must add our worry that where there are one or two mad scientists, with an “allegiance” to the truly terrorist concept of world depopulation who are releasing deadly pathogens, there may be more. Like the supposed well trained, equipped and directed “lone wolf” ISIS adherents, “lone wolf” scientists pose an unprecedented threat while more centrally placed bioterrorism perpetrators are a massive threat to us all as well.

In fact, we must also now consider what else lurks on not only on the fringes of society but at the core of the society itself.

¹¹ Defense Advanced Research Projects Agency

Will the world discover, over the next few weeks to months, that a *Hidden Cabal of Genocidal Genomists* are spreading disease to “reduce the risks” of what they see as overpopulation?

By the way, if you still think that overpopulation is a real threat, check out the intriguing statistics and facts at www.TheMythofOverPopulation.com

Dr. Rima recommends preparing for the risks of science gone mad by paying attention to your immune system *now*. Good nutrition, plenty of rest, reducing stress in your life, and, of course, **Dr. Rima Recommends Nano Silver 10PPM**, have been shown to support a supercharged immune system. Your microbiome, the bacteria, viruses and yeasts that live usually in harmony in your gut, needs to be happy and regulated to have that immune support. Antibiotics profoundly deregulate and disrupt the microbiome. Nano Silver leaves it completely intact

You can find Dr. Rima’s recommendations for supercharging the immune system and protecting yourself and your family members here. here: <https://www.nsfmarketplace.com/mainstore>

Months ago, we predicted that plague, the Black Death, would be the new Plaguezilla. Sadly, we may have been right. A highly virulent form of pneumonic plague (much deadlier than bubonic plague) is, according to WHO, spreading from Madagascar, off the coast of Africa.¹⁴

WHO says, “The outbreak started following the death of a 31-year-old male from Ankazobe District in the Central Highlands ... as of 30 September, 10 cities have reported pneumonic plague cases and ... during the Coupe des clubs champions de l’océan Indien (a basketball championship), a Seychellois basketball player, died in a hospital in Madagascar by pneumonic plague.”

Recently, CNN: told us, “A plague outbreak in Madagascar has infected 1,192 people since August, with 124 deaths, the United Nations Office for the Coordination of Humanitarian Affairs and Madagascar’s National Bureau of Risk Management and Disaster reported on Monday. **The majority of cases, 67%, were the pneumonic form of the disease, which can spread from person to person.**”¹⁵

So how does this involve a mad scientist? Here’s the beginning of the really crazy (and potentially very, very dangerous) part just when you wouldn’t think it could get any crazier:¹⁶

¹⁴ <http://www.who.int/csr/don/02-october-2017-plague-madagascar/en/>

¹⁵ <http://www.cnn.com/2017/10/25/health/madagascar-pneumonic-plague-outbreak/index.html>

¹⁶ http://pissinontheroses.blogspot.com/2017/10/is-virulent-black-death-oubtbreak-tied.html?utm_source=feedburner&utm_medium=email&utm_campaign=Feed%3A+PissinOnTheRoses+%28Pissin%27+On+The+Roses%29

“The highly unusual outbreak of airborne Pneumonic Plague in Madagascar may be manmade and of higher threat to humanity than might otherwise be expected. ... In August the POTRBLOG team¹⁷ warned about the potential for an outbreak of Pneumonic Plague tied to the arrest one of the world’s top Pneumonic Plague researchers [Wyndham Latham] as the mastermind behind a truly bizarre gay fetish murder triangle.”^{18, 19}

Some of the points raised in support of the man-made nature of the outbreak include:

- “(1) Latham admitted he recently traveled to Madagascar
- (2) He was appointed to lead Pneumonic Plague research at the Pasteur Institute in Paris
- (3) French Authorities strangely killed his security clearance to handle BioWeapons
- (4) He returned to the USA and apparently masterminded a Fetish Murder Ritual with a stranger to murder multiple people, including himself and his coconspirator
- (5) His apparent profile fits the type of person who would engage in a Bioterror murder
- (6) He researched and engineered virulent forms of airborne Plague bacteria in his lab
- (7) The time frame is right for him to have seeded Pneumonic Plague in Madagascar
- (8) A highly unusually airborne outbreak of Pneumonic Plague has occurred in Madagascar...”

Dr. Rima and Natural Solutions Foundation have repeatedly warned about the risks of a new plague. On August 18, 2017 we warned that plague was going to be used against us in the near future.²⁰

And we’ve warned that ‘Plaguezilla’, the now no-longer-mythical “new plague”, was being concocted in laboratories across the world and we were just one mistake, or one intentional act, away from a world-wide pandemic.

During the past two and a half millennia a world plague has struck on average every half millennium (approximately 500 years). Seven hundred years ago it was the Bubonic Plague (also known as the Black Death) that started in 1346 CE and may have killed a third of the population of Europe.

Before that, the Plague of Justinian killed 40% of Eurasia’s population in 541 CE and before that, the Antonine Plague killed 30% of Eurasia around 165 CE.

A century ago next year the Great Influenza killed at least 75 million, which was less than a tenth of the population and thus may not have been the Great Plague of this era.²¹

That new Great Plague may be starting now.

The new Great Plague, with a little help from its ‘friends’.

We have precautions and major advantages that the people living in previous eras did not: we have, modern communications to alert us and help us make sensible decisions about travel, food, etc., we have, in the main, clean water, availability of nutritious diets (if we stop eating GMO junk PHUDE), modern hygiene and sanitation and a huge advantage that no one had before our times: [Nano Silver 10 PPM](#).²²

Has Dr. Rima’s Nano Silver 10 PPM been shown to kill *Yersinia pestis*, the organism that causes plague? Well, yes and no. The manufacturers of this amazing immune support nutrient also use the same material [at a different concentration] as an FDA approved surface cleaner and, in tests of that product an independent laboratory found,

¹⁷ <http://pissinontheroses.blogspot.com/>

¹⁸ <https://youtu.be/TzhUVM65AMw>

²⁰ <http://www.opensourcetruth.com/depop-doowop-ready-to-dance-the-plague/>

²¹ https://en.wikipedia.org/wiki/List_of_epidemics

²² <http://www.nsfmarketplace.com/mainstore/>

“Y. pestis is the bacterium that causes Bubonic Plague, which can kill 60% of untreated victims in three to five days. We wanted to test the limits of our product’s capability, and we are delighted with the results. A normal in vitro (test tube) bacterial test uses a load of 500,000 bacteria per milliliter. The level of plague causing bacteria in our sample was 160 times that normal amount... [The product] killed the bacteria in less than two minutes.”

Furthermore, their US government-approved patent for using this material to kill *Yersinia pestis*, plus other deadly organisms, states, in part, *“By performing a standard kill-time assay using a Y. pestis suspension, it is demonstrated that **silver compositions of the present invention are effective even against the bubonic plague bacteria.**”* [Emphasis added by the authors].

It is important to remember that these tests were of the same material as Dr. Rima’s Nano Silver 10 PPM but at a different concentration and they were laboratory [*in vitro*], not biological [*in vivo*] tests. Dr. Rima says,

“However, as a physician, I am betting my life on the power and efficacy of my Nano Silver 10 PPM to save my life and the life of the people I care about through several means:

I will be taking a minimum of 2 caps full of Nano Silver 10 PPM per day, one in the morning and one at night, until the Plaguezilla coast is clear. Since it is totally non-toxic, that is completely safe for as long as I need it.

○ *I will be adding some Nano Silver 10 PPM to a cold nebulizer and misting it into my bedroom at night (and putting a cold nebulizer in everyone’s room in the house for their safety as well).*

○ *Since this weaponized Plaguezilla attacks the lungs, I want my pulmonary immune system fully armed for my protection!”*

Another physician, Dr. Marcial-Vega, has been using silver in nebulizers to control many types of serious lung infections, reporting that nebulizing about 4 ounces in the device is the most effective way he has yet found to assist the body in its own mop-up operation of killing dangerous bacteria, a function which the richly endowed immune tissue of the lungs is very skilled at carrying out as long as it does not get overwhelmed.

The support [Nano Silver 10 PPM](#) is designed to provide for the immune function is of paramount importance to the outcome of any encounter with a pathogen, such as *Yersinia pestis*, the bubonic or pneumonic plague.

What can we expect if there really is another plague, if the depopulationists finally get it right and it really does happen this time? Recall that no vaccine ever diminished the incidence of any disease, let alone prevented or mitigated it. Sanitation, hygiene and nutrition have done that, along with clean water.²³

On the one hand, this **will** be a weaponized plague designed to enhance virulence (severity of the disease) and transmissibility (ease of spreading). On the other hand, with the improved sanitation, hygiene and nutrition present in the modern world, many more people **may** survive. Of course, the strongly negative impact of the immune damage that the modern vaccination/immunization schedule has done to almost everyone on the planet will weaken many who otherwise should have survived. They will not.

Many millions more, malnourished, living in unsanitary megacities and impoverished remote areas without access to personal sanitation, hygiene and wholesome diets, may also not survive. Expect international travel to be restricted. Expect world trade to collapse, and with it many economies. Expect social chaos and dictatorial controls. That, after all, has been the plan with each recent genetically engineered would-be Plaguezilla, each one of which has, so far, at least, failed:

– SARS

²³ <http://drrimatruthreports.com/wp-content/uploads/Final-All-India-Medical-Congress-Paper.020415.pdf>

“SARS, a respiratory infection with an overall death rate of 11 percent and one 50 percent or higher among people 60 and older, is of paramount concern.”²⁴

– MERS

“The R0 [reproduction number] estimated in Riyadh appears similar to that seen for SARS-CoV, but CFR [case fatality rates] appears higher, and indirect evidence suggests control activities ended these outbreaks. These data suggest this disease should be regarded with equal or greater concern than the related SARS-CoV.”²⁵

– Avian Flu

“According to the Centers for Disease Control and Prevention (CDC), it has been estimated that in the absence of any control measures such as vaccination and drugs, a “medium-level” influenza pandemic in the United States could kill 89,000 to 207,000 people, affect from 15 to 35 percent of the U.S. population, and generate associated costs ranging from \$71 billion to \$167 billion. Another Centers for Disease Control and Prevention (CDC) estimate suggested that, in the United States alone, up to 200 million people will be infected, 50 million people will require outpatient care, two million people will be hospitalized, and between 100,000 and 500,000 persons will die. These numbers are significantly higher than the estimates used by the Department of Homeland Security. The HHS notes that the death rate associated with the 1918 influenza applied to the current population would produce 1.9 million deaths in the United States and 180 million to 360 million deaths globally.”²⁶

– Swine Flu

“Using a mathematical model they created, the researchers estimated that there were 284,500 respiratory and cardiovascular deaths (201,200 were respiratory) associated with the 2009 pandemic. The results suggest that 80 percent of the deaths occurred in people younger than 65; typically with seasonal influenza, most of the deaths occur in elderly people. What’s more, 51 percent of the deaths occurred in Southeast Asia and Africa - regions that account for 38 percent of the world’s population. The global toll however could surpass as many as 575,000 deaths, the researchers said”²⁷

– Zika

“Because of the apparent danger to fetuses, women in several countries are being urged to delay having children. In Colombia, Ecuador, and Jamaica, officials have cautioned women against pregnancy; and in El Salvador, the government is urging women to [wait for up to two years](#) before getting pregnant. If the advice is followed, it’s possible that population trajectories in these countries might materially differ from prior projections.”²⁸

I have been saying for years that eventually the depopulationists would finally get it “right” and they would have a working Plaguezilla stalking us on the streets. Is this one it? Is the Black Death their long-sought success?

But no matter what they do, we have a secret weapon that supports our survival because it supports our immune system, our ultimate survival weapon is [Nano Silver 10 PPM](#).

What can you do? Avoid assaults on your immune system such as vaccines, drugs, GMO-fake “PHUDE” and exposure to debilitating electromagnetic and environmental pollution. Eat real food and consume safe, hydrating beverages.

Supercharge your immune system with high-quality nutrition with dietary supplementation that includes high levels of Vitamin C, minerals such as zinc and [Nano Silver 10 PPM](#), the best protection for your immune health.

The more people who are protected, the less impact Plaguezilla can have. And that is really good for all of us and really bad for the globalist elites whose suggestion about how to protect us from this kind of event was, if

²⁴ <http://www.nytimes.com/2003/11/11/science/what-is-the-next-plague.html>

²⁵ <http://currents.plos.org/outbreaks/article/obk-14-0037-estimation-of-mers-coronavirus-reproductive-number-and-case-fatality-rate-for-the-spring-2014-saudi-arabia-outbreak-insights-from-publicly-available-data/>

²⁶ https://www.globalsecurity.org/security/ops/hsc-scen-3_flu-pandemic-deaths.htm

²⁷ <https://www.cbsnews.com/news/death-rates-from-2009-swine-flu-pandemic-15-times-higher-than-earlier-estimates-study-finds/>

²⁸ <http://fortune.com/2016/01/27/pandemic-zika-virus/>

you recall, to kill off as many of us as possible so there would be fewer people to die from an epidemic! It's called the Global Health Strategic Initiative and it's every bit as crazy as the lunatic professor who apparently started this nightmare this time around.

These statements have not been evaluated by the Food and Drug Administration. Not intended to diagnose, prescribe for, treat, cure, mitigate or prevent any disease. Nano Silver is offered as a dietary supplement to support normal immune function.

Plague outbreak feared OUT OF CONTROL as police forced to SEIZE infected bodies

AN OUTBREAK of plague is feared to become out of control as ten files are refusing to hand over infectious bodies and victims are avoiding doctors.

By Henry Holloway / Published 22th November 2017

Madagascar plague: WHO places nine countries on high alert

CGTN

Alamy Live

MADAGASCAR PLAGUE

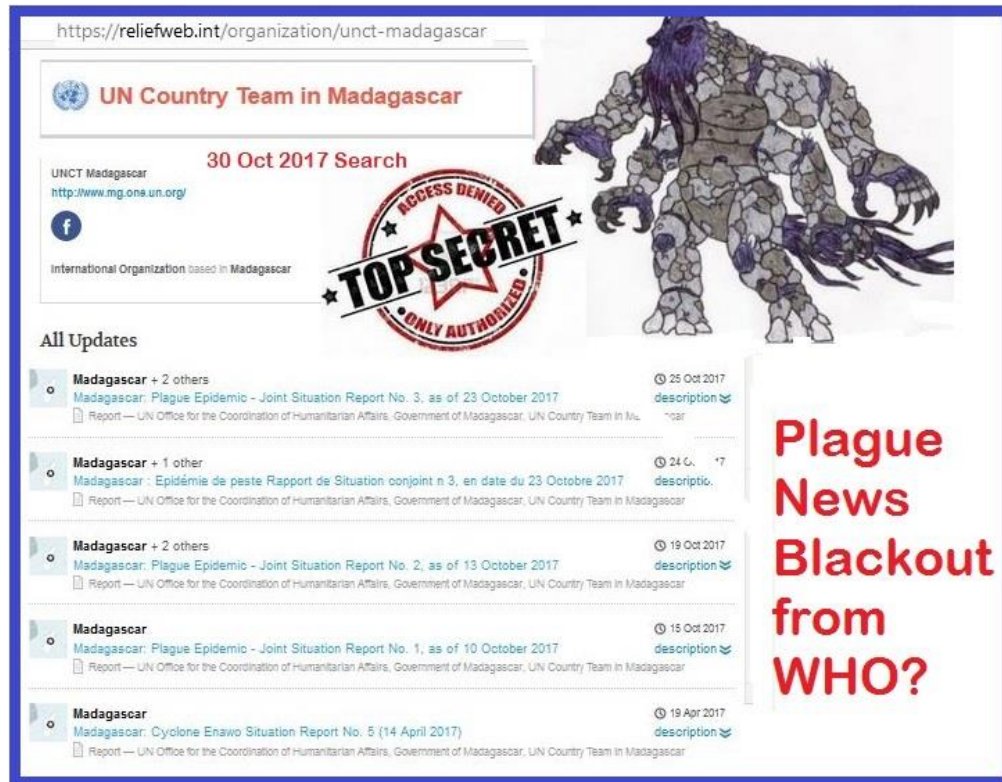

Health authorities scramble to contain deadly outbreak

CGTN Africa

Madagascar remains ravaged by the zoonotic plague that is believed to have killed more than 100,000 people in the 1950s.

CHAPTER THREE

Plaguezilla Loves His Top-Secret Stamp! It Makes Him Feel Sooooo Powerful! Why is There a News Blackout on Deadly Plague?

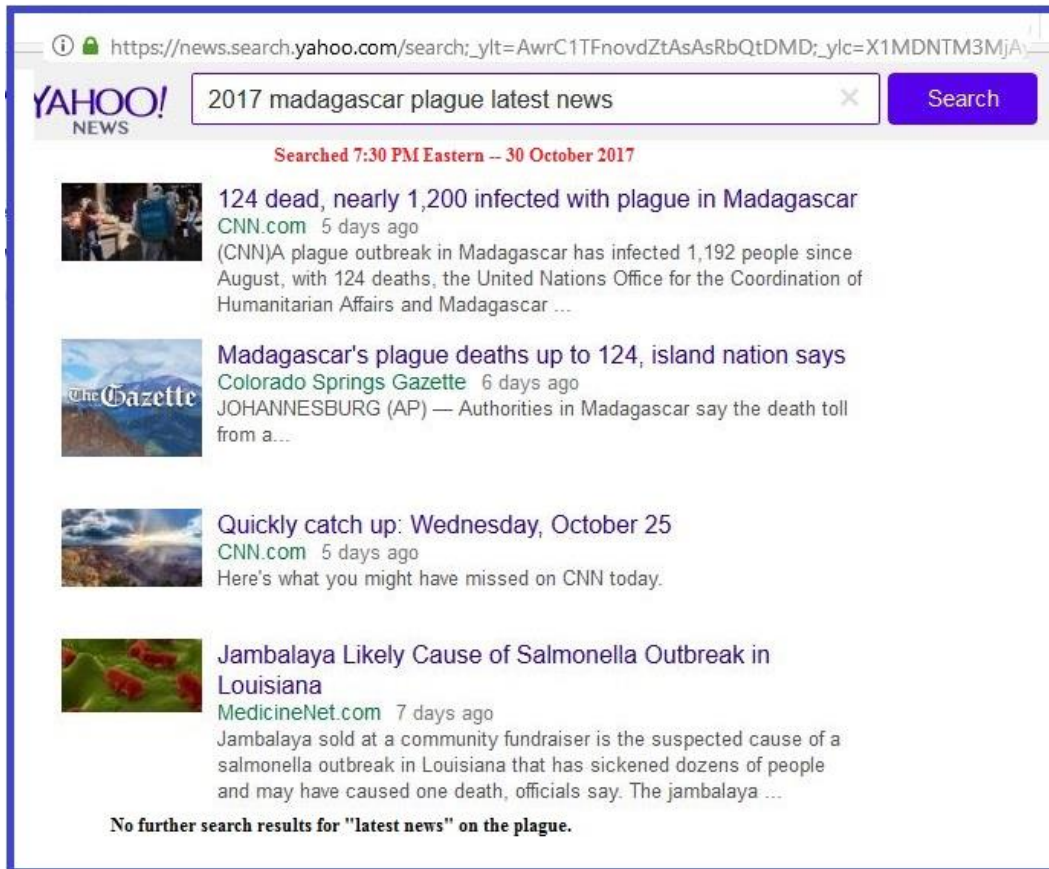

After ominous warnings over the past six weeks, including credible reports of a potential pandemic, all plague news has suddenly stopped — very strangely. The above search of the UN web page for Madagascar, where this plague appears to have been released by a disgraced, mad, pandemic scientist shows a highly disturbing pattern:

WHO (the World Health Organization, a private entity funded which receives more than 2/3 of its funding from the pharmaceutical industry) stopped issuing updates and information on November 3, 2017 and has not done so for about ten days; a very ominous development.

Consider that under “normal” [weaponized] pandemic circumstances, whether the news in them is true or not, updates are issued continually. The sudden absence of all official news is decidedly unusual and worrisome.

Is this a weaponized plague? Apparently so. This Yahoo search of “latest news” of the plague suggests censorship of plague developments. Note that all of the “latest news” is at least five days old. This search, conducted at about 7:30 PM on 30 Oct 2017, is typical: no news, and that’s very bad news.

Frankly, when the news stops this way, early in a weaponized disease outbreak, we have a lot to worry about. The Natural Solutions Foundation is taking the step of raising the alarm: keep your eyes open and your immune system ready! Rima E. Laibow, MD, Medical Director of the Foundation, stated today,

“While under normal circumstances we would expect better fed people in wealthier societies who have access to hygiene and clean water to be less likely to die, in this case, since the disease has been weaponized, extraordinary measures like nutrient Nano Silver 10 PPM are urgently needed. The time to prepare is NOW *before* the disease spreads from the less-developed to more-developed countries.”

[Nano Silver 10 PPM](#) supercharges the immune system and is totally nontoxic.

The news blackout, of course, may end as quickly as it started. My analysis, however, is that rather than being “unnewsworthy” the situation is so serious that the public health ‘authorities’ are stonewalling to prevent public panic.

In these “interesting times” advance preparation may be the only thing that saves your life. Join the Natural Solutions Foundation email list for updates on these and other vital health freedom developments. www.DrRimaTruthReports.com

CHAPTER FOUR

THE ADVENTURES OF PLAGUEZILLA CONTINUE

**Nothing Makes Plaguezilla Happier Than
“Vaccine Science” Leading to More Disease!**

<http://www.NSFmarketplace.com/mainstore>

Plaguezilla is getting ready for the new season and he is especially happy when he reads (in Natural News) that the Influenza Vaccine absolutely doesn't prevent the flu. Instead, it makes vaccinated people more susceptible to the flu in future years! According to one study, 250% more susceptible!

***BOMBSHELL: Flu shots scientifically proven to weaken immune response in subsequent years...researchers stunned ...** Lisa Christian, PhD, the lead researcher on the study, concluded, “Growing evidence shows that those who received a flu shot in the prior year have lower antibody responses in the current year.” – Natural News*

Frankly, the last thing any of us want is to make Plaguezilla happy! Dr. Rima Recommends™ immune system protection with safe, gentle and nontoxic [Nano Silver 10 PPM](#). Dr. Rima reminds us to: “Prepare for the new flu season by building a strong immune system. There is no better nutrient to assure a vibrant, effective immune system than Nano Silver, 10 PPM.”

A few years ago we broke the news about a government-funded, de-classified study that showed, in the presence of Nano Silver, viruses could not penetrate the live human cells used in the experiment, and therefore could not replicate to cause illness. Nano Silver supports normal cell membrane integrity. No penetration, no replication: the only real protection from a viral attack.

CHAPTER FIVE

IT'S AN "EARLY FLU SEASON" THEY SAY

PLAGUEZILLA www.NSFMarketplace.com

WE'RE BAACK!

No one knows when or where the next plague will occur, or whether it will be from a natural or bioterrorist attack. But it is coming.

Get Your Nano Silver Protection **NOW!**

THE PLAGUEZILLA SAGA

<http://www.NSFmarketplace.com/mainstore>

For years they've been telling us the new plague is on its way. This has been "in the works" for a long time; the *New York Times* predicted Plaguezilla...

*"No one knows when or where the next plague will occur, or whether it will be from a natural or bioterrorist attack. But it is coming. The next plague may be from a newly discovered infectious agent or a natural mutation that produces a new version of an old microbe. It may even escape from a laboratory. Or the next plague may be caused by a microbe that, having become resistant to standard antibiotics, spreads widely and rapidly. 'Over the last 40 years or so, scientists have identified a steady parade of new infectious agents, mostly viral. That experience suggests a greater likelihood that the next plague will be caused by a virus rather than a bacterium,' said Dr. William Schaffner, the chairman of preventive medicine at Vanderbilt University."*²⁹
– *New York Times*

Dr. Rima Recommends™ that you prepare for the new flu season by building a strong immune system. There is no better nutrient to assure a vibrant, effective immune system than Nano Silver, 10 PPM. A few years ago we broke the news about a government-funded, de-classified study that showed, in the presence of Nano Silver, viruses could not penetrate the live human cells used in the experiment, and therefore could not replicate to cause illness. Nano Silver supports normal cell membrane integrity. No penetration, no replication: the only real protection from a viral attack.

We have a fresh stock of Nano Silver available now. Don't wait until it's gone — we always sell-out our whole inventory as we approach flu season.

Secure your supply here: <http://www.NSFmarketplace.com/mainstore>

CHAPTER SIX

Dr. Rima Truth Reports WHO Hiding Solutions For Resistant Killers from You — NATURALLY!

WHO (World Health Organization) now says that there are 12 antibiotic resistant organisms that pose the greatest possible threat to human survival. Plague (the Black Death) is not on the list... yet!

“Only a handful of new antibiotics have come on the market in the past decade, and health organizations such as the Infectious Diseases Society of America worry that progress on other drugs is ‘alarmingly elusive.’”³⁰

You know that my [Dr. Rima Recommends™ Nano Silver 10 PPM](#) is a powerful source of immune support. We verified that when General Bert’s nutrition-super-charged immune system fought the good fight throughout his 158 day hospitalization earlier this year. What you may not know is that when he was in a dirty and dangerous institution called a ‘hospital’ (before we lost him to ... what?) he had repeated infections with organisms from every category of WHO’s list. Every single one. That’s what happens in hospitals. Routinely.

His infectious disease doc told me each time that this one would do him in: the antibiotics would likely kill him but if they did not, then the resistant bug would.

I gave him my Nano Silver 10 PPM every single day. Without fail. He left the infection behind every single time. He recovered from *multiple* antibiotic resistant organisms over and over and over. From pneumonia, from septicemia, from infections in his stomach, his small and his large intestines, over and over and over.

He was very ill so I gave him 4 capfuls per day instead of 1 a day for immune support or 2 or 3 per day for current bacterial, viral or parasitic activity.

And the infectious disease guy kept saying, “WOW! Maybe it *IS* the silver!” but *never* used it for anyone else. Then one day he said, “Why don’t we stop all the vitamins and silver and see if he [Gen. Bert, my husband and the love of my life] *goes bad?*” Turn my husband into a little experiment, to see how soon he could die. Horrendous. [Informed Consent?](#) Forget about it!

And that is exactly what the hospital Medical Director did 3 days later, to the laughing amusement of the infectious disease doctor.

Draw your own conclusions. I did and I went to Court, and, with the help of Counsel Ralph and a wonderful

³⁰ <https://www.vox.com/2017/2/27/14750882/deadliest-superbugs-world-health-organization>

NJ/NY lawyer, Neil Grossman, got a unprecedented Court Order to compel the hospital to allow me to continue to feed General Bert. AND give him my [Dr. Rima Recommends Nano Silver 10 PPM](#).

He recovered yet again and was transferred to another hospital, where he died, but not from infection.

Now we are facing one or more of what are likely weaponized strains of the Black Death.

I can only imagine that they now are, or soon will be, antibiotic resistant. But I know of nothing, NOTHING, that is resistant to my [Nano Silver 10 PPM](#). A strong immune system, nourished by nutrients like Nano Silver 10 PPM, can do what it was made to do: protect you.

In lab tests, the results were what you would want them to be. Even the Lancet, a medical journal not known for its friendliness to our type of advanced health care, published an article in 2013 that showed in the presence of Nano Silver pharmaceutical antibiotics worked ten times better.³¹

I know that in my husband's body, the deadly organisms that were supposed to kill him quite literally went away when I gave him what I know to be safe and effective immune support: my [Nano Silver 10 PPM](#).

Why do I tell you this now? Because WHO tells us that the [weaponized] [intentionally released] Black Death, in its especially deadly pneumonic form, is spreading rapidly. You need Nano Silver protection on hand. I trusted it with General Bert's life and I trust it with my own.

Not surprisingly, we are running out of our supply and it is not instantly available from our manufacturer.

I would recommend you get yours right away. The Black Death, in its weaponized, globalized, airborne form, is only a plane ride away from everywhere. We have to protect ourselves and those we love. Order more than you think you need because there will be people to whom you will want to give this gift of life!

CHAPTER SEVEN

THE PLAGUEZILLA SAGA...

**MEET PLAGUEZILLA
WITH THE W.H.O. AND MEDIA WARNING ABOUT
AN UPTICK IN PLAGUE AND OTHER DISEASES
ARE YOU READY?**

Flu Season is Just Around the Calendar
We KNOW There Will Be Another Plague Cooked Up and Ready For Us!
Our Nano Silver 10 PPM May Run Short. Don't Miss Out — Order It Before It is Gone!

Dr. Rima recommends this Nano Silver 10 PPM for a very good reason: there is absolutely nothing like it to support your immune system. That means no matter what virus, bacteria or other ‘biological bad boy’ you encounter, your own defenses are supported.

But there’s a problem: it is hard to make and we are running low. So to protect yourself and your family, now is a good time to order your supply to protect yourself and your family from “*Plaguezilla*“.

To help you make sure you have enough on hand, buy 6 bottles — we will give you an Advanced Vaccine Directive card, a \$30 value, as our gift. Purchase 12 bottles and we will send you 2 Advance Vaccine Directive cards as our gift, a \$60 value!

Nano Silver 10 PPM (pure distilled water and super charged Nano silver 10PPM) has a shelf life of pretty much forever. You will be sure to have a goodly supply on hand and enough to ‘share the wealth’ with people you care about.

Special Offer:

Free Advance Vaccine Directive Card with 6 bottles of Nano Silver - \$37 Value,
2 Free Advance Vaccine Directive Cards with 12 bottles of Nano Silver - \$67 Value

[Nano Silver 6 Pack + 1 AVD Free](#)
[Nano Silver 12 Pack + 2 AVD Free](#)

Rima E. Laibow, MD
International Medical Director**

The Natural Solutions Foundation is a recognized nongovernmental not-for-profit organization registered in the United States with activities in Benin, Chile, Panama and the United States.

The Mission of the Natural Solutions Foundation: “Discover, Develop, Demonstrate, Document and Disseminate Natural Solutions...”

The Dr. Rima Institute serves people seeking well-being and health. Our clients come from all over the world. We provide unique, drug-free Protocols to deliver information, nutrients and energy to assist in gaining, or regaining health. Our Protocols are designed to help return the body to normal structure and function and detoxify recent or long-term toxins which are reducing optimal function. *Dr. Rima Recommends™* a variety of modalities, all of which are non-toxic, drugfree, to support health and function. Health restoration, rejuvenation and preventive protocols are areas of significant focus.

Notification: This Protocol Document is prepared as a private communication to licensed physicians, governmental and nongovernmental agencies and persons with a need to know. It is provided as part of the Mission of the Natural Solutions Foundation, an international non-governmental organization (NGO). The Protocol Document is issued under the aegis of the Dr. Rima Institute. Reproduction is freely permitted so long as full attribution to www.DrRimaTruthReports.com is given.

This Protocol is intended for use with Nano Silver 10 PPM. The Research upon which this Protocol rests was performed with Nano Silver 10 PPM and cannot be generalized to other forms of nutrient silver. *Dr. Rima Recommends The Silver Solutions* is identical to the Nano Silver used in the DTRA (see Appendix). Some of the information provided may relate to “off-label” uses of Nano Silver which is labeled and offered as a dietary supplement to support normal structure and function.

This Protocol Document is intended to provide a standard of therapy for the use of topical Nano Silver sanitizer and the use of nutrient Nano Silver 10PPM as a Medical Food, for the dietary management of inflammatory and related processes. Communication regarding the nutrient use is protected under the United States Orphan Drug Act of 2005.

For a detailed analysis, with citations to the scientific literature, regarding Nano Silver 10PPM as a pro-immunity nutrient see: <http://tinyurl.com/StopEbola>.

Nano Silver 10PPM is a potent natural viral-regulating nutrient that has been shown to support normal cell membrane integrity when viruses are present. Similar to pro-biotic nutrients supporting normal biological terrain, by supporting normal microbiota, Nano Silver is a pro-immunity nutrient that supports normal immune system response.

Nano Silver offers the following advantages:

- All evidence suggests that Nano Silver 10PPM will help where vaccines do not exist or fail (the now normal situation) and are beneficial even when the immune system is impaired, such as in AIDS.
- While there are some suggestions of mild risks to the environment, our research shows that they are unfounded.
- Nano Silver 10PPM is widely used around the world for its ability to regulate the microbiota such that pathogenic organisms cannot continue to infect. Nano Silver 10PPM is, in fact, approved by the United States government as a surface cleaner for hospitals, food service and other health-sensitive areas because of its notable efficacy and non-toxic profile. See Appendix B for reference to the 2009 DTRA study.
- Sufficient short-term protection for an individual outbreak cluster is provided by the use of Nano Silver that an epidemic can be effectively prevented even after infection clusters have been established.
- Therapy can be started after infection, and normal immune function, including GI flora, is left intact to assist in recovery and prevent opportunistic co-infection.
- Nano Silver 10PPM is stable at room temperature.
- Nano Silver 10PPM offers a potentially beneficial therapy against virtually all types of viruses, bacteria and other pathogens (including malaria, and dengue), is self-sterilizing, reducing its cost and increasing its usefulness in challenging circumstances.
- Nano Silver 10PPM is a pro-immunity nutrient.
- Prescribed antibiotics have been shown to be up to ten times more effective when the patient is ingesting supplemental Nano Silver.³²

GENERAL NANO SILVER PROTOCOL

Based on the above-noted factors, and considering the cost-effectiveness of food-grade Nano Silver 10PPM and of surface-sanitizing Nano Silver 30PPM applications, the standard of care for infection, inflammation and contamination includes both topical and ingested Nano Silver.

Ingested Nano Silver 10PPM is a Medical Food as defined by the US statute and accepted by the US FDA:

“which is formulated to be consumed or administered orally or via intravenous means under the supervision of a physician and which is intended for the specific dietary management of a disease or condition for which distinctive nutritional requirements, based on recognized scientific principles, are established by medical evaluation....” Section 5(b) of the Orphan Drug Act (21 U.S.C. 360ee (b) (3))

This Protocol includes the requirement to strictly adhere to all quarantine and containment protocols.

Nano Silver 10PPM may be mixed with water or juice if desired, but since it is odorless and tasteless, it may be consumed as is.

Although Nano Silver is self-sterilizing, it is prudent to continue all isolation, containment and

³² <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3771099/> – Silver Enhances Antibiotic Activity Against Gram-negative Bacteria

decontamination efforts to avoid exposing others who may not be within the reach of the Nano Silver Protocol.

Note on Dilution: The concentration of Nano Silver must be noted and amount given adjusted accordingly to conserve resources.

If higher concentrations than 10 PPM (Parts Per Million) of Nano Silver are used, the amount given to each person should be reduced to achieve the same Nano Silver administration results.

For example, a 20 PPM Nano Silver 10PPM solution would be diluted 1:1 and administered as 1 teaspoon of 10 PPM x 3/day as described above or given undiluted (20 PPM) as ½ teaspoon, reducing the amount given for higher concentrations so that the effective amount delivered = 1 teaspoon of 10 PPM Nano Silver. Although Nano Silver 10PPM inhibits water-borne pathogens, in-so-far as possible, sterile water is recommended for dilution.

Additional Nutritional Considerations

As with all health promotion strategies, natural solutions require that the remedy work with nutritional status. Thus, the better the overall nutrition, the better the patient will respond. With hemorrhagic fevers the anti-inflammatory benefits of high levels of Vitamin C cannot not be overstated. Ideally, IV Vitamin C is best with acute conditions, but in any event, even a few grams orally a day can be of benefit. In addition, general anti-free radical supplementation is advisable. Nutritional enhancement with nutrients such as Cannabidiol will support the endogenous cannabidiol system to support normal immune function.

General Protocol Instructions

[1] Ingested Nano Silver 10PPM

(A) Either before or after exposure:

A standard serving of Nano Silver 10PPM consists of 1 US teaspoon (tsp) = ½ ounce = 5 cc = 1 capful of 10 PPM Nano Silver before likely exposure or after exposure: 3 servings a day is recommended.

(B) For promotion of health after symptoms have developed:

Give 1 standard serving orally every other hour from around the clock until symptoms disappear, for up to three days. The Nano Silver 10PPM should be held in the mouth for at least a half minute and then swallowed (12 CC daily).

[2] Topical Nano Silver

(A) For oral and skin lesion:

1) Skin Lesions: Apply dressings and saturate with Nano Silver 10 PPM solution, cover with occlusive dressing as appropriate or apply directly to lesion

2) Oral Lesions: If recipient is capable of participating in oral care, Nano Silver 10 PPM solution should be used as a mouthwash and either swallowed or expectorated. Since the Nano Silver 10PPM will sterilize the expectorant, it can be disposed of with other hospital waste but requires no special precautions beyond ordinary isolation protocols.

If recipient is not capable of participating in oral care, Nano Silver 10 PPM Solution should be applied directly to oral lesions.

(B) For decontamination of surfaces:

Wash all potentially contaminated contact surfaces with standard surface-sanitizing concentrations of Nano Silver (typically 30 PPM). Rinsing is not necessary since no toxic residue remains.

Sheets, gloves, food service items and other reusables may be decontaminated as well. Disposables should be decontaminated with Natural Solutions before being released into the waste stream.

Full Disclosure: The Dr. Rima Recommends™ brand of Nano Silver 10PPM is available for public health and personal options at <https://www.NSFmarketplace.com/mainstore>
